FUTA SECONDARY SCHOOL WINS LAURELS

...Appoints New Vice-Principal

The tradition of excellence which the Federal University of Technology Akure, FUTA is noted for has further been underscored by students of its secondary school. Recently students of the FUTA secondary School beat their counterparts from other schools in Ondo State to clinch the first position in a quiz competition organised by the Ondo State Ministry of Education. The FUTA Secondary school students emerged the overall best out of 300 participants.

Also, at an earlier competition for Junior Engineer Technicians and Scientists (JETS) competition, representatives of FUTA Secondary School came second. These feats were possible through the commitment and dedication of the management, staff and students of the school.

In another development, Mr Anthony Ikuyinminu has been appointed the Vice Principal (Administration) of the School. Ikuyinminu, 53, joined the services of the School as a teacher in 1994 and rose through the ranks to become form master and Head of Science Department until his recent appointment.

The Principal, Dr (Mrs) M.O. Fasakin urged Ikuyinminu to continue with the spirit of enthusiasm and commitment and wished him a successful tenure.
