FUTA MANAGEMENT HOSTS ARCON/NIA

The Management of the Federal University of Technology, Akure under the leadership of the Vice-Chancellor, Professor Adebisi Daramola recently received in audience officials of the Architects Registration Council of Nigeria (ARCON)/Nigerian Institute of Architects (NIA) who were in the Institution to carry out statutory revalidation of the University's Architecture programme.

Professor Adebisi thanked the officials for the support the University had received in the past and their contributions to various structural designs of the buildings in FUTA. He also said that the school Management values aesthetics and would continue to ensure that architectural masterpieces remain the hallmarks of the Institution. This culture, according to Professor Daramola, is also transferred to the students who pass through the school and the feedback from the labour market positively justifies the investment in the students.

The leader of the team, Arc. S.T Echono, FNIA, appreciated the warm reception received from the University and promised to carry out their mission expeditiously.
